Keeping student safety at the centre of every decision, the school has introduced a new fleet of advanced buses to provide a safer and more comfortable daily commute. These modern buses are equipped with CCTV surveillance, GPS tracking, seat belts, first-aid kits and a Water Mist Fire Protection System. Radiant Cooling

PGGS employs an eco-friendly radiant cooling system (Thermally Activated Building Systems or TABS), which circulates warm or cool water through embedded pipes in ceilings/floors to regulate indoor temperatures.
